

# GC & Architect SPOTLIGHT

**LABARRE**  
ASSOCIATES

**ARKE** Constructors

*Enjoy lunch, mix and mingle and learn more about:*

**LABARRE ASSOCIATES** has been in operation for over 35 years and provides owners with turnkey solutions for site acquisition, design, construction, and strategic facility planning for commercial properties across the Gulf Coast. Labarre Associates will be speaking on the Integrated Project Delivery (IPD) construction process and how its team-based approach can benefit owners, architects, general contractors and subcontractors.

**ARKE CONSTRUCTORS** was formed in 1996 with the purchase of a small contracting firm to bring commercial construction capabilities to the Arkel Group of companies. The company has transformed over the years to meet the demands of the markets and has diversified itself to work in the industrial and commercial construction sectors with a facility maintenance division to service Client's throughout the lives of their buildings. Today, Arkel Construction has a solution for any construction project and is set up to support clients through the life cycle of their buildings. Their leadership's commitment to being a client-focused company that puts forth the extra effort for the clients is what makes them unique and has allowed them to transform their business over the years.
